SUMMARY

Experienced Software Engineer with 2 years of expertise in JavaScript and React JS. Proven track record at Globallogic. Adept at developing innovative and user-centric solutions, collaborating with cross-functional teams to deliver high-quality software products.

EXPERIENCE

SOFTWARE ENGINEER   **Sept `23 - Present**
GlobalLogic Inc   India

- Created a professional user interface using ReactJS and a component-based structure to seamlessly showcase automated extractor-extracted data, optimizing data presentation and user interaction.
- Implemented Redux toolkit state management solution, optimizing data flow and ensuring seamless synchronization across the application.
- Proficiently managed data extracted from automated processes using MongoDB and SQL Server, and leveraged React for efficient distribution.
- Integrated React's virtual rendering with NodeJs and MongoDB to enhance application performance, leading to a substantial 12% reduction in incorrect offers displayed on the platform.

SKILLS

- **Programming Languages:** Java, JavaScript, PHP, SQL
- **Front-end Development:** HTML5, CSS3, ReactJS
- **Back-end Development:** NodeJS, MongoDB, MySQL, RESTful APIs, Laravel (basic)
- **Version Control and Tools:** Git (Version Control), VSCode, Postman

EDUCATION

B.tech in Computer Science & Engineering, Inderprastha Engineering College, Ghaziabad   2019 - 2022
(GPA: 7.84 CGPA)

Diploma in Computer Science & Engineering, Swami Vivekanand Subharti University, Meerut   2016-2019
(GPA: 7.2 CGPA)

PROJECTS

Real-Time Chat Application
- Technology Stack: Developed using Node.js for the backend and HTML/CSS for the frontend. User Status Display: Implemented a feature to display the online/offline status of users, providing visibility into their availability.

Responsive NewsApp with Infinite Scroll
- ReactJS and Bootstrap Integration: Leveraged the power of ReactJS to build a robust, single-page application that dynamically updates content without requiring page reloads. Implemented Bootstrap for a clean and responsive design, ensuring optimal user experience across devices.
- NewsAPI Integration: Successfully integrated the NewsAPI to fetch and display current news articles, offering users up- to-date and reliable information from various sources.
- Infinite Scroll Implementation: Designed and implemented an infinite scroll feature, eliminating the need for traditional pagination and allowing users to seamlessly scroll through an extensive list of news articles.

CERTIFICATIONS

Cisco Certified Network Associate (CCNA)
